

## PLAN FOR IMPLEMENTATION OF WORKING PACKAGE 2

Basic activities during the implementation of Work Package 2 are aligned with its basic outcomes:

### D2.2. Report: *Circular Economy in EU Development Strategies* (M17)

During the pilot research, it was established that there is a relatively low level of knowledge of the basic concepts that are the subject of the project (sustainable development, European strategies, circular economy), and the project team adopts the proposal to publish the mentioned material in the form of an educational and informative brochure. The brochure will be designed in a way adapted to the respondents and the wider community in rural areas, where the project is focused.

**Member of the project team responsible for the preparation and printing of the brochure:**  
Prof. Dr. Simonida Vukadinović

### D.2.3. Monograph: *Circular economy in the creation of a new economic identity of the Republic of Serbia* (M18)

It was determined that the name and possible content of this monograph coincides in many ways with the monograph that is the result of Work Package 3. Bearing in mind the above, as well as the fact that the basics of economic development are mostly unknown to the target group of respondents and residents of rural areas, but also to students, the project the team adopts the proposal to **make a change** and to prepare and publish a monograph entitled: "Policy of economic development", with a chapter that will clarify the place and role of the circular economy in the policy of economic development of society.

**Team member responsible for the preparation of D2.3. Monograph: *Policy of Economic Development* (M18):** Prof. Dr. Andrea Andrejević Panić. A draft of the contents of the monograph was prepared and adopted.

### D.2.4. Monograph: *Circular economy as a driver for youth empowerment in rural areas* (M19)

As there is overlap with other project outcomes aimed at youth, consider possible replacement with another project outcome.

**Team member responsible for consideration of the replacement:** Prof. Dr. Mirjana Radovanović
